

NTSB Aviation Incident Report

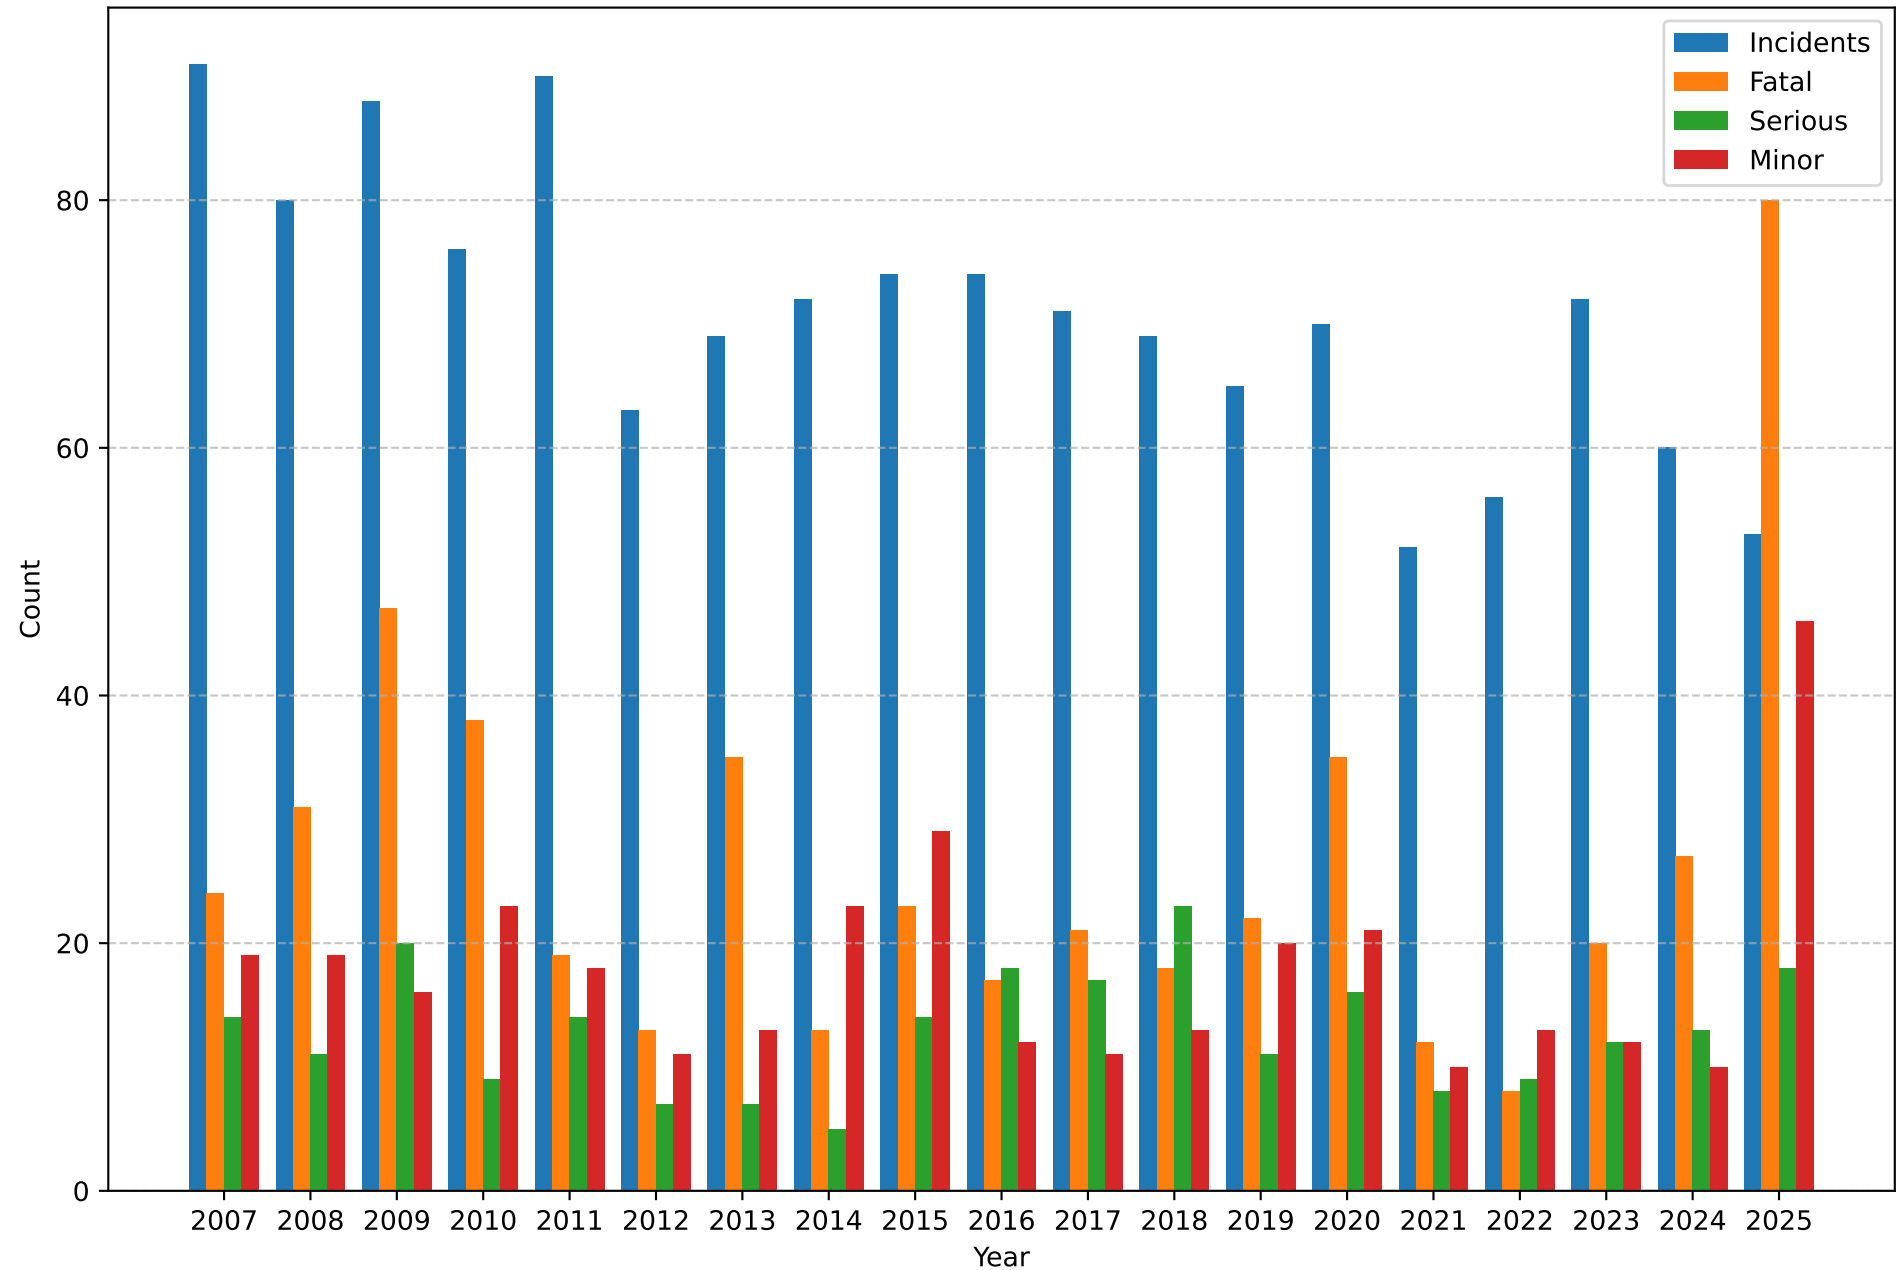

This report analyzes aviation incidents and accidents from January 2007 to February 2025, as recorded by the National Transportation Safety Board (NTSB). Data is sourced directly from <https://www.nts.gov/> and is visualized to track monthly trends in total incidents and injury types (Fatal, Serious, Minor).

The bar charts compare the full month of January across all years (from 2007 on the left to 2025 on the right). The spreadsheet-style tables below present the numbers split into groups of four months with a custom header for improved readability.

For months that have not yet occurred, values are shown as "N/A".
